Professional Summary

I am a highly experienced User Interface and User Experience Designer with over 15 years of expertise creating exceptional digital products. Currently I am looking for my next professional challenge which allows me to continue my journey of contributing my expertise bringing best practices on transformational UX/UI projects as part of a high-performance team.

I have successfully contributed to numerous projects by developing user journeys, process flows, wireframes, mockups, and prototypes. My work directly involves engaging with internal and external clients, allowing me to work with others to bridge the gap between business requirements and innovative design solutions.

Professional Experience

Senior UX/UI Designer

MiView Integrated Solutions - Dallas, TX (Apr 2022 - Oct 2023)

Designed two mobile applications for field workers to keep track of their work in the construction industry.

Senior UX/UI Designer

Collabera Inc - Dallas, TX (Nov 2021 - Mar 2022)

Discovery engagement with United Airlines for a baggage transformation project.

www.collabera.com
